

WinWin 4 WorkLife

Coordinated by the
**Luxembourg Institute
of Socio-Economic
Research**

“ **Build healthy,
inclusive and
sustainable remote
working
arrangements !** ”

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Research Executive Agency. Neither the European Union nor the granting authority can be held responsible for them. This project is under grant agreement no. 101132580.

WinWin4WorkLife: Overview

Objective

Enhance understanding of Remote Working Arrangements (RWA) and their impacts on work-life balance, health, and productivity.

Scope

Interdisciplinary approach covering urban, rural, and cross-border areas in Europe.

Focus

Assess living and working conditions, forecast environmental impacts, and develop policy recommendations.

Funding

Funded by the European Union

Duration

2024 - 2027

WinWin4WorkLife: Project Objectives and Impact

Key Objectives

- **Healthy Work-Life Balance:**
Assess conditions ensuring healthy RWA for diverse populations.
- **Environmental and Spatial Impacts:**
Develop models predicting impacts of RWA on mobility, land use, and air quality.
- **Cross-Border Research:**
Explore RWA uptake influenced by culture, regional context, and welfare systems.

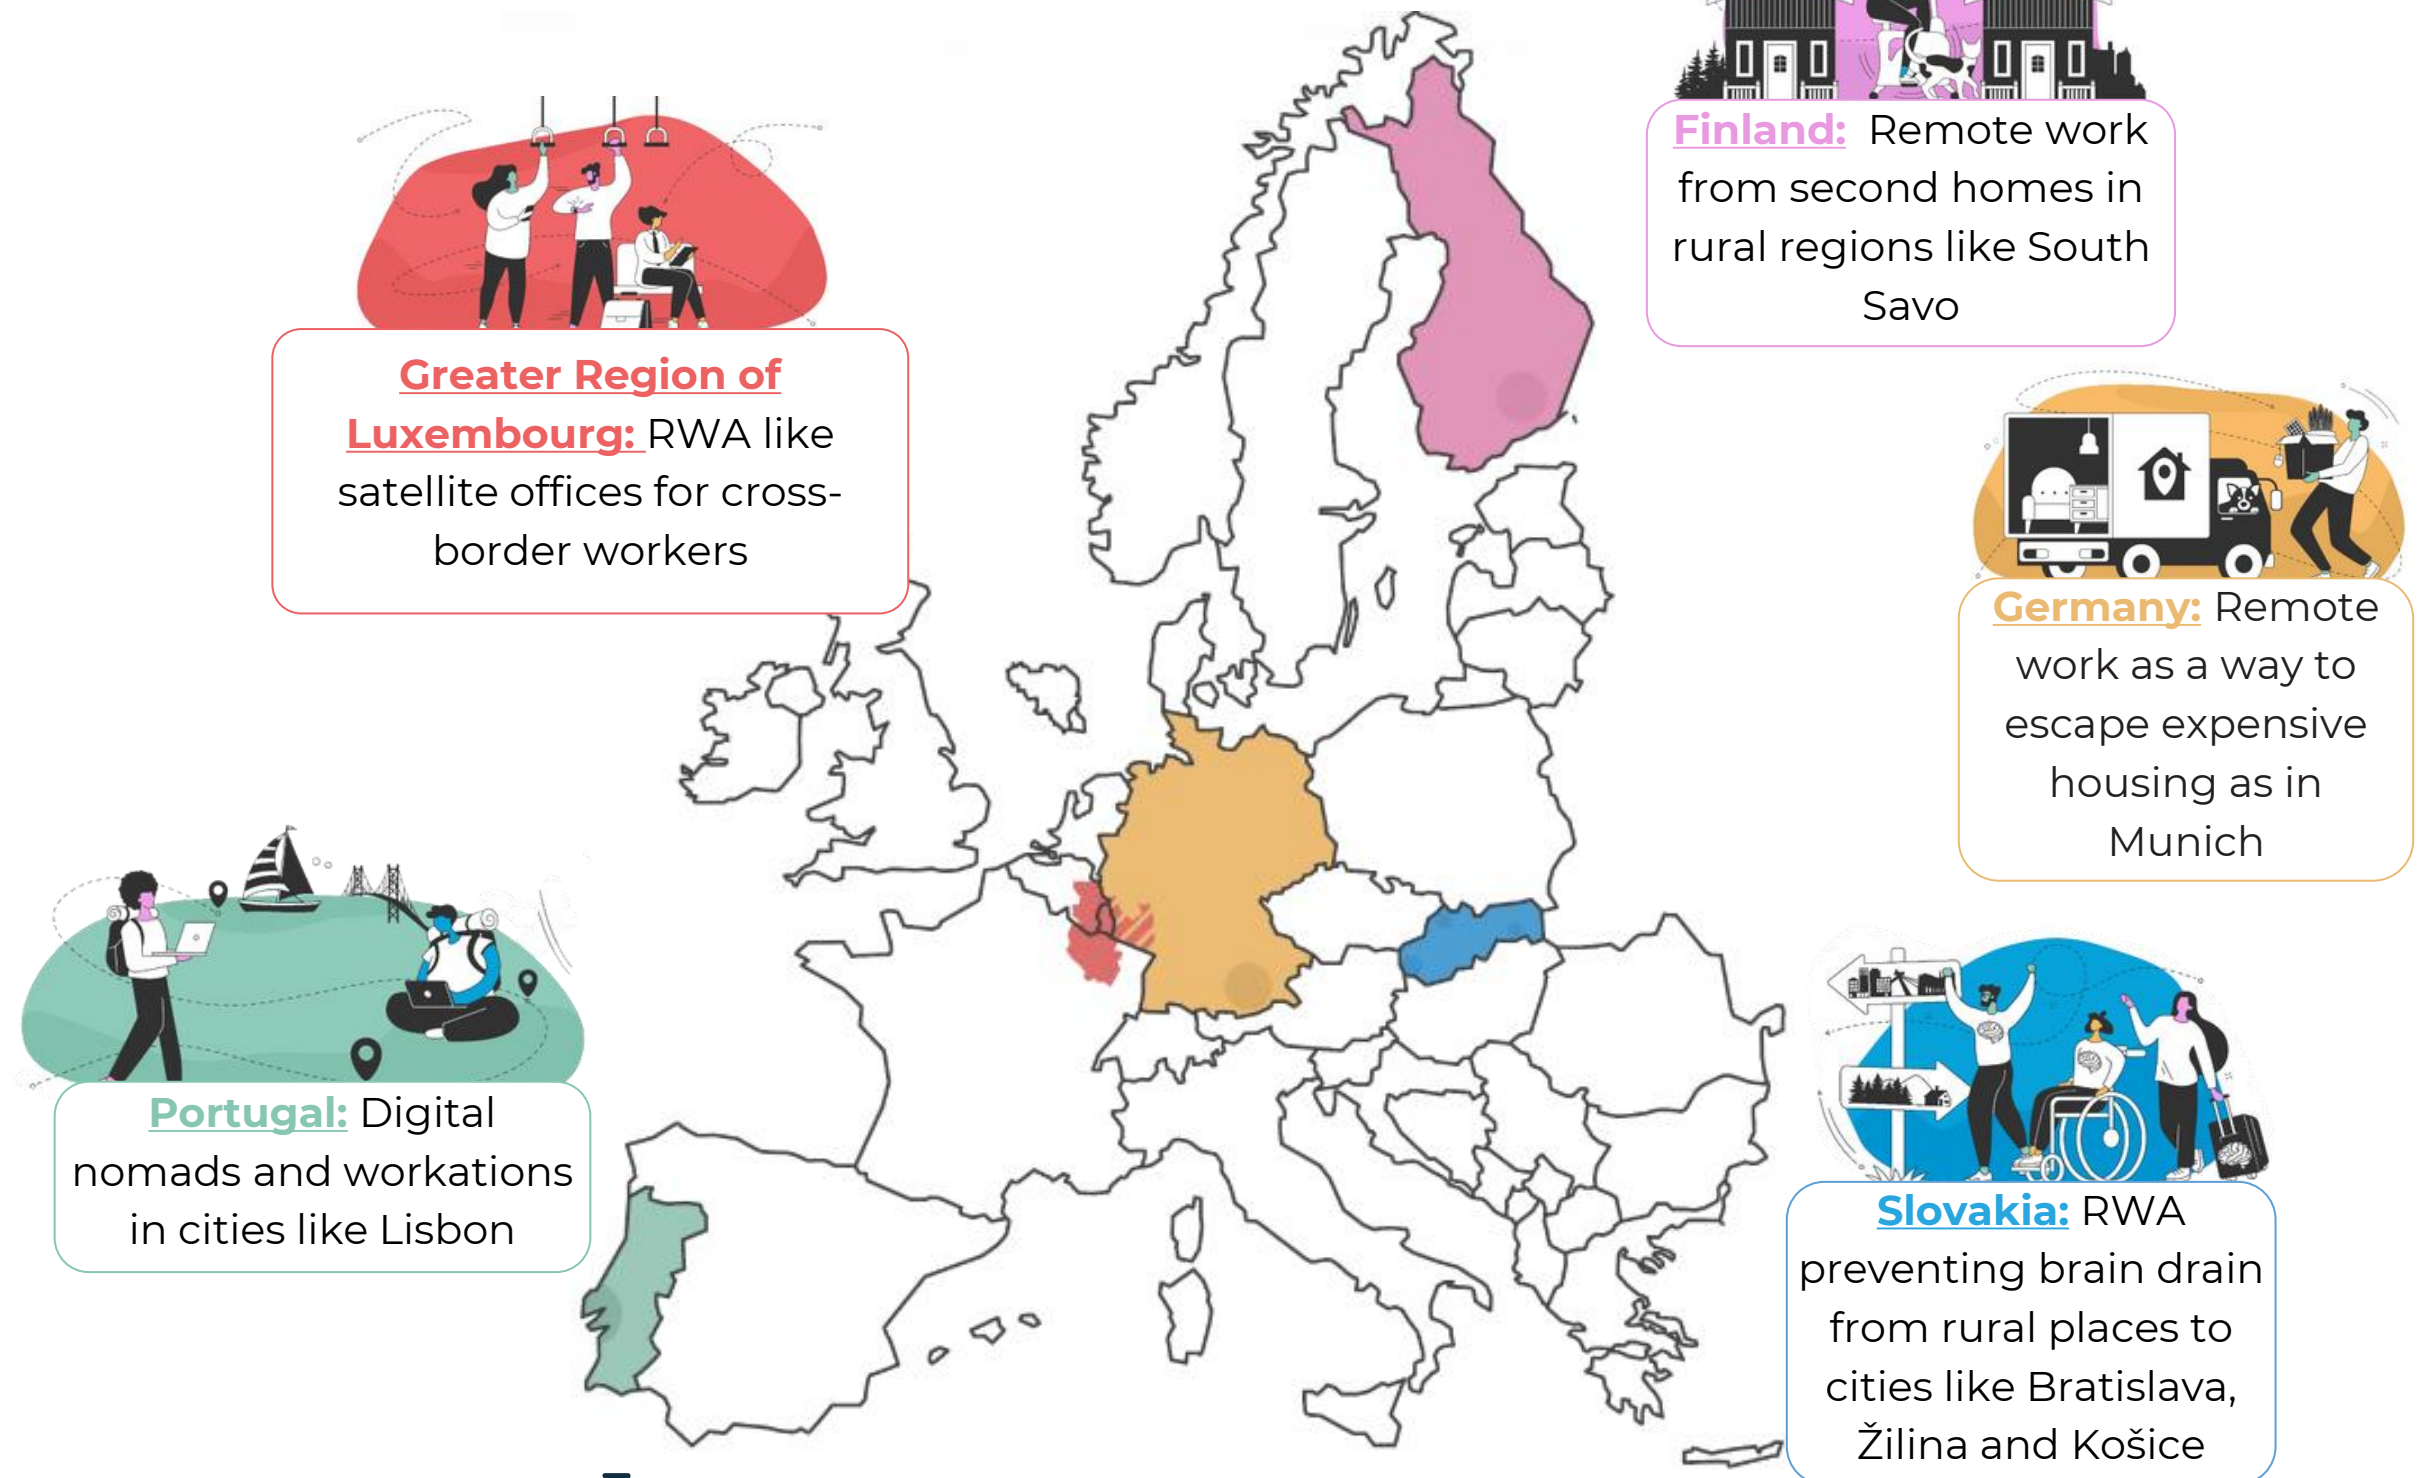

Expected Impact

- **Policy Influence:**
Provide evidence-based recommendations to shape future remote work policies.
- **Health and Well-Being:**
Promote strategies to enhance mental health and reduce inequalities.
- **Economic and Environmental:**
Mitigate environmental impacts and optimize resource allocation.

#WW4WL : Case Studies

Methodology:

- 1- Surveys and Interviews:**
Data collection from employers and employees.
- 2- Modelling and Forecasting:**
Spatial forecasting models for activity and travel behaviour.
- 3- In-Depth Analysis:**
Mixed methods approach for comprehensive understanding.

WinWin4WorkLife: Project Results

Literature Review and Surveys:

Comprehensive review on RWA impacts on mental health and productivity

Model Development :

Integrated land use/transport models reflecting RWA impacts.

Data Collection and Analysis :

Surveys, time-use diaries and interviews from selected case study locations.

Policy Recommendations :

Evidence-based guidelines for sustainable and inclusive RWA policies.

Feedback to stakeholders:

Presentation of the results and discussions with the stakeholders

Thank you
